SUMMARY

Passionate Frontend Engineer with hands-on experience building responsive, high-performance web and mobile applications using React, TypeScript, Next.js, and React Native. Skilled in backend integration, UI/UX optimization, and scalable architecture. Proven ability to deliver real-world projects from concept to deployment.

WORK EXPERIENCE

Frontend Engineer - Tarantula

October 2025 - Present

- Developing a manufacturing product using, React Native, TypeScript, Tailwind, Firebase

Frontend Developer - Bbros L.L.C

May 2024 - October 2025

- Contributed to the development of scalable web and mobile applications using React, Next.js, React Native, Expo, and Node.js
 - Worked on high-traffic marketplace platforms, focusing on performance, stability, and user experience
 - Implemented dashboard features for user management, content moderation, and data handling
 - Built and maintained cross-platform mobile functionality for iOS and Android using React Native and Expo
 - Integrated key features such as payments, real-time chat (WebSockets), and multilingual support
 - Developed components for dashboards and LMS platforms, including progress tracking and user management
 - Applied basic SEO best practices in Next.js applications (meta tags, structured content, performance optimization) to improve visibility
 - Added engagement features like push notifications and package-based access systems
 - Contributed across the stack, supporting frontend, backend, and database-related tasks
 - Optimized application performance through code refactoring, efficient state management, and reduced load times
 - Collaborated with developers, designers, and product teams to deliver and improve features
-

EDUCATION

Bachelor's Degree in **Computer Science and Engineering** - UBT

2022 - 2026

SKILLS

- **Frontend Technologies:** React.js, React Native, Next.js, Vite, TypeScript, JavaScript, HTML & CSS, HTML5, Tailwind, Bootstrap
 - **State Management:** Redux, RTK Query, Zustand
 - **Backend Technologies:** Node.js, Express.js, MySQL, Redis
 - **Version Control & Tools:** Git, Expo, Xcode, Firebase, Pusher, Socket.io
-

CERTIFICATION

- | | |
|---|-------------|
| • Artificial Intelligence - Coursera | 2024 |
| Introduction to AI and Machine Learning. | |
| • AI and Emerging Technologies - Atingi | 2024 |
| Explored AI, Machine Learning, Big Data, and IoT. | |
| • React.js - ROI Academy | 2024 |
| Mastered JavaScript and React.js. | |
| • Introduction to Computer Science 50 - Harvard Edx | 2022 |
| In-depth understanding of algorithms, data structures, and web development. | |
| • Front-end Development - Digital School | 2021 |
| Intensive training in HTML, CSS, and an introduction to JavaScript. | |
